

North Haven

School Digital Citizenship Plan 2024-2025

Relevant contextual information about your school and School Development Plan:

- K-6 school with a diverse population and many EAL learners
- Holistic Goal: Our focus this year will be on creating assessment based practices that involve Grade team and school wide collaboration.

Relevant evidence and data that informs your Digital Citizenship Plan:

- K-3 learners are developing digital competencies through a variety of digital platforms including, Google Classroom, Typing Programs, Canva for Education and Scratch
- 4-6 learners are continuing to develop their digital competencies using the above programs, as well as through G suite

School Digital Citizenship Plan						Progress		
Long Term Goal (e.g. spanning 8-10 months)	Competency (may be chosen from the CBE DC Competencies)	Short Term Goals (in support of the long term goal)	Outcomes	Activities & Resources	Measures	November	January	June
Long term goal #1 Learners will develop skills to express their opinions and perspectives appropriately, using words and pictures.	Respectful I am respectful and inclusive in my words and actions. I am open to multiple viewpoints and perspectives. I am empathetic towards others.	Short term goal 1: Students will use writing programs, power point and Canva for Education to express their opinions, viewpoints and self evaluate their own work.	Students will learn how to use the programs appropriately. Student work will be shared with the teacher and presented to students when appropriate.	Teachers will familiarize themselves with a variety of programs that students can use in classrooms to create projects that express their understanding and viewpoints. Teachers will teach students how to use these programs appropriately and monitor content.	Student work will be monitored for appropriate use of pictures and written content.			

Long term goal #2 Learners will develop skills using digital tools to support and enhance learning .	Involved I leverage digital tools to learn, express my creativity and collaborate with others.	Short term goal 1: Students will use Google tools, and a variety of programs, to support and enhance their learning.	Students will understand how to use a variety of programs and use these tools to enhance their learning and evaluate their classroom work.	Teachers will familiarize themselves with a variety of programs, through lunch and learns and CBE tutorials, and teach students how to use them effectively for learning and evaluation.	Increase in student use of technology throughout the school. Increase in teachers demonstrating and incorporating technology into teaching and student evaluation.			
Long term goal #3 Learners will understand the importance of protecting personal information online and apply the appropriate strategies to keep their personal information private.	Safety I know how to be safe online and create safe spaces for others in online communities. I know how to protect my personal information online.	Short term goal 1: Students will share and apply appropriate strategies for protecting personal information online	Students will create an age appropriate, unique password to access the CBE network using school based technology.	Staff will review the CBE Digital Citizenship Competencies with students. Students will learn how to keep their passwords and login information, for programs and various platforms, private.	Students will create a unique password to access the CBE network on school based technology. Students will be taught how to change their password, using the student account tool, if they feel their password has been compromised.
